RE: UMBC Stadium Bleacher Renovation, Bid # BC-20984-R, ADDENDUM # 2

The following amends the above referenced Bid documents. Receipt of this addendum must be acknowledged by completing the enclosed "Acknowledgement of Receipt of Addenda" form and submitting it along with the Bid Price Sheet you return to the University.

The due date and time for the Technical Proposal to be submitted to the University remains as WEDNESDAY, SEPTEMBER 9, 2015 by 2:00 p.m. to the issuing office.

A. The following questions were asked at the Pre-Proposal Meeting for a response:

1. QUESTION: Please clarify the dimensions of space the University has set aside for These bleachers as the bid documents make reference to "space predetermined by the University", but do not call out specific dimensions.

   ANSWER: The University did not specify a specific dimension for the bleachers. The Contractor is required to build a system within the space provided (300 L’ x 10’ W) before the slope of the hill begins. The University anticipates that the contractor could install a system free of concrete footings that could begin to rise up the hill creating somewhere between 5-7 rows. The ramp for ADA accessibility is to be included in the 300' length, along with the break for a smaller system of bleachers for visitors.

2. QUESTION: What is the expected seating capacity?

   ANSWER: The University did not specify a seating capacity for the bleachers. The Contractor is required to submit this information based on the area allotted (see #1, above). The University requires a system that is as far back from the touch line as possible, but can also extend up the hill which is free of
concrete footings before significant engineering is required to sustain a platform of this size.

The University anticipates a large and small system of bleachers designated for the home and visitor fans which are not connected. The systems should be of similar construction with the ability to separate fans, but both systems do not need ADA accessibility, only the larger system will need this capability. We also would like to see a 5-year warranty.

3. QUESTION: What is the required warranty period?
   ANSWER: Five (5) years, minimum.

4. QUESTION: Is there an Minority Business Enterprise (MBE) goal?
   ANSWER: Yes, 25%.

5. QUESTION: Will the contractor be responsible for the removal/disposal/demolition of the existing bleachers required.

6. ANSWER: This is an Add Alternate. The University may require the Contractor to do this work. The Price Proposal Form (below) includes an area for this work to be priced.

We further understand that this Price Proposal includes all costs associated with the provision of the scope of work per the RFP documents.

We further confirm that the key person named within our Technical Proposal will be assigned to UMBC for the duration of this contract. We understand that no changes in these assignments will be allowed without written authorization from the University via contract amendment prior to such changes being made.

We understand that if we are the successful Bleacher Renovation Firm we will be required to provide the university with proof of meeting all insurance requirements as set forth in the RFP documents. By signing this Price Proposal form, we are agreeing to comply with the insurance requirements, and if necessary, will purchase, at our expense, all necessary riders to comply. Such insurance policies inclusive of all riders will remain in force for the contract and warranty periods.

As well, we agree to all terms and conditions as set forth in the RFP documents, including those of the documents issued to solicit Technical Proposals, all addenda since that issuance, our Technical Proposal submitted in response to the original solicitation, and our Price Proposal are a part of any resulting contract.

The Proposer represents, and it is a condition precedent to acceptance of this proposal, that the Proposer has not been a party to any agreement to submit a fixed or uniform price. Sign where applicable below.
