Requests shall include the RFP number and name.
O. INSURANCE

The successful vendor will be required to document proof of insurance for Commercial General Liability, Worker's Compensation, Automobile Insurance and Errors & Omissions Insurance. The University of Maryland Baltimore County and the State of Maryland are to be named as an "additional insured" on all but Worker's Compensation and Errors & Omissions Insurance.

NOTE: INSURANCE MUST BE ON A PRIMARY BASIS. CONTRACTUAL REQUIREMENTS MUST BE CLEARLY INDICATED ON CERTIFICATE OR BY ENDORSEMENTS.

1. The following conditions for insurance must be met by the Vendor:

   i. The Contractor shall not start work under this contract until the Contractor has obtained at its own expense all of the insurance called for hereunder and such insurance has been approved by the procurement officer; nor shall the Contractor allow any subcontractor to start work on any subcontract until all insurance required by the subcontract has been obtained and approved by the contractor and University of Maryland Baltimore County. Approval of insurance required of the contractor and subcontractors for the University will be granted only after submission to the University of original certificates of insurance signed by an authorized representative of the insurers or, alternately, at the University's request, certified copies of the required insurance policies.

   ii. The Contractor shall require all subcontractors to maintain during the term of this agreement, Commercial General Liability insurance, Business Automobile Liability insurance, Workers Compensation, and Errors and Omissions Insurance in the same manner, including the additional insured requirements in paragraph e. below, i.e., as specified for the Contractor. The Contractor shall furnish subcontractors' certificates of insurance to the University immediately upon request.

   iii. All insurance policies required hereunder shall be endorsed to include the following provision; "It is agreed that this policy is not subject to cancellation, non-renewal, material change, or reduction in coverage until forty-five (45) days prior written notice has been given to the University of Maryland Baltimore County".

   iv. No acceptance and/or approval of any insurance by the University of Maryland Baltimore County shall be construed as relieving or excusing the Contractor, or the surety or bond, if any, from any liability or obligation imposed upon either or both of them by the provision of the Contract Documents.

   v. NAMED ADDITIONAL INSURED - The University of Maryland Baltimore County and the State of Maryland (including their elected or appointed officials, agents and employees) are to be named as additional insured under all coverage except Worker's Compensation and Errors & Omissions Insurance and the certificates of insurance (or the certified policies, if requested), must so indicate through inclusion of appropriate endorsement. Coverage afforded under this paragraph shall be primary to any other insurance of self-insurance, whether or not such other insurance or self-insurance is stated as primary, excess or contingent, as respects the above additional insured, their elected and appointed officials, agents and employees.
vi. Insurance coverage required in these specifications shall be in force throughout the Contract Term. Should the Contractor fail to provide acceptable evidence of current insurance within ten (10) days of receipt of written notice at any time during the contract term, the University shall have the absolute right to terminate the Contract without any further obligation to the Contractor, and the Contractor shall be liable to the University for the entire additional cost of procuring substitute performance and the cost of performing the incomplete portion of the Contract at time of termination.

vii. Contractual and other liability insurance provided under this Contract shall not contain a supervision, inspection or engineering service exclusion that would preclude University of Maryland Baltimore County or participation institutions from supervising or inspecting the operations of the contractors as the end result.

viii. The Contractor shall assume all on-the-job responsibilities as to the control of persons directly employed by it and of agents or subcontractors and anyone directly or indirectly employed by any of them, or by anyone for whose acts any of them may be liable. Contractor shall be as fully responsible to University of Maryland Baltimore County for the acts and omissions of the subcontractors and of persons employed by them as it is for acts and omissions of persons directly employed by Contractor.

ix. All required insurance coverage must be acquired from insurers allowed to do business in the State of Maryland and acceptable to University of Maryland Baltimore County. The insurers must have a policyholders' rating of "A-" or better, and a financial size of "Class VII" or better in the latest edition of Best's Insurance Reports.

x. The University of Maryland Baltimore County will consider deductibles or self-insured retention as part of its review of the financial stability of the proposer. Any deductibles or self-insured retention shall be disclosed in the Contractor's proposal and shall be assumed by the Contractor.

2. The following conditions for insurance must be met by the Vendor:

SECTION 00400
COLUMBUS CENTER EXHIBIT HALL ROOF CONSULTANT

SCOPE OF WORK

ARTICLE 1

1. DESCRIPTION: The University of Maryland Baltimore County (UMBC) seeks proposals from qualified consultants to:

1. Investigate alternative roofing options for the Columbus Center Exhibit Hall area currently enclosed by a tensile fabric roofing structure, as well as, investigate providing an exterior building envelope to cover existing interior finishes in locations that could possibly be exposed with one or more of the alternative roofing options; and,

2. Provide conceptual design services to re-configure the current Hall space to make the space more usable by the University occupants.

2. PROJECT SCOPE:

2.1 Background Information: Established in 1966, the University of Maryland, Baltimore County (UMBC) is one of twelve universities that along with two regional centers and one system office constitute the University System of Maryland. UMBC is located 15 minutes from Baltimore’s Inner Harbor and 30 minutes from Washington, D.C. BWI Airport is five minutes away, as are AMTRAK and light rail stations.

UMBC is a public research university, emphasizing graduate programs in the sciences, engineering, public policy, information technology, and human services, building on a strong undergraduate liberal arts and science core. UMBC is increasingly recognized as a major resource for building the State’s economy and addressing its social concerns. More than 70% of UMBC’s 53,600 active alumni live and work in Maryland, contributing significantly to the State’s economic and social vitality. In Fall 2013, UMBC had 13,908 enrolled students from nearly all 50 states and more than 80 nations, creating a richly diverse student body. In 2012, the university awarded 2,231 bachelor’s degrees, 528 master’s degrees, 95 doctorates and 131 graduate certificates.

As of July 1, 2010, UMBC became responsible for the operation and management of the Columbus Center located at 701 E. Pratt Street in Baltimore City.

The Columbus Center building was completed in the spring of 1995. This 263,000 gsf, five story building was designed, constructed and operated by a private development company. In 1999, ownership of this facility was transferred to the State of Maryland for the use of the University System of Maryland (USM).

The office and research space in the building is occupied by researchers and staff of four (4) USM institutions: (1) University of Maryland Center for Environmental Science (UMCES); (2) University of Maryland Baltimore County (UMBC); (3) University of Maryland Baltimore (UMB); and (4) Towson. The balance of the building consists of an Exhibition Hall which is currently unoccupied and used periodically for events.
2.2 **Project Specific Background:** The Exhibition Hall of the Columbus Center has a tensile fabric roof structure that extends over the lobby area of the building and provides an enclosure that encompasses the west wall of the building on the ground level through the 6th level at the Mechanical Penthouse.

Prior to the property being transferred to the State, the Exhibition Hall was utilized for this purpose; that is, it housed exhibits associated with marine and aquatic life with interactive displays. The University, however, does not have a need for such exhibit-type space.

This roof has been in place for 21 years, having been installed in August of 1994. Bi-annually, UMBC engages a consultant to evaluate the roof condition. Based on the last evaluation report dated May of 2014, this roof has been rated in good condition and has an estimated remaining useful life of 4 years. So at some point in the near term, this roof structure will require replacement.

Since the current exhibition hall space does not serve the University’s purposes, UMBC is interested in exploring options as part of planning for this roof replacement that would result in a reconfiguration of the floor area in this hall to one that is more suitable to the University’s operations. For this reason, UMBC is interested in engaging a consultant to explore and identify such options inclusive of the alternatives for different roofing structures.

3. **CONSULTANT ENGAGEMENT:**

3.1 **Consultant Team:** The University is interested in engaging a consultant for the purposes described above with the following team members:

- Architect with extensive experience with tensile fabric roof structures and with adaptive re-use of existing buildings/structures. This person should have demonstrated experience with a variety of more prevalent roofing systems and designs and details; if this is not the case, a separate tensile fabric structure consultant and/or roofing consultant should be included on the consultant’s team to provide the necessary experience.

- Structural Engineer with demonstrated experience with adaptive re-use and additions to existing structures.

- Mechanical Engineer with demonstrated experience with adaptive re-use for laboratory applications. (Note: Expansion of the existing HVAC systems serving the exhibition hall area is anticipated in order to be sufficient for any new uses in this space.)

- Electrical Engineer with demonstrated experience with adaptive re-use of existing buildings/structures.

- Professional Construction Estimator with demonstrated experience with adaptive re-use of existing buildings/structures and laboratory applications. This estimator will be required to provide detailed pricing for each roofing alternative.
3.2 **Scope of Services:**

3.2.1 **Part A:** Consultant shall investigate alternative roofing options for the Hall area currently enclosed by a tensile fabric roofing structure. Alternatives shall include structural considerations with respect to the existing building structural design loads and capacities as well as the impacts of the structure needed to support the specific alternatives.

Consultant shall also investigate providing an exterior building envelope to cover existing interior finishes in locations that could possibly be exposed with one or more of the alternative roofing options. Each proposed alternative shall include a detailed description of the roofing material, a description of the work and time line involved in placing the proposed materials and a detailed cost estimate.

3.2.2 **Part B:** Consultant shall provide conceptual design services to re-configure the current Hall space to make the space more usable by the University occupants. Design considerations shall include architectural, structural, mechanical and electrical required for the re-configured spaces. Services shall also include cost estimates for the proposed re-configured space separate from the cost estimates associated with the roofing portion of the project.

4. **DELIVERABLES:** Below please find the deliverable applicable to each element of the Project (Parts A and B).

4.1 **Part A:** The consultant shall provide a written report to include a description of all roofing alternatives examined with the associated factors for consideration and an assessment of each option (i.e. not viable, viable, recommendation) with an explanation for each inclusive of the associated detailed cost estimate.

Plans or sketches are to be provided inclusive of elevations and sections of the work to be performed.

4.2 **Part B:** The consultant shall provide plans or sketches of the proposed space re-configuration and associated detailed cost estimate for each discipline.

5. **PROJECT SCHEDULE:**

The Project is to be completed within **sixteen (16) weeks** of the issuance of the Notice to Proceed to the Consultant by the University. The anticipated award date is June 30, 2015.

The proposed time schedule is critical to the successful completion of this project. Any recommendations of the Consultant for improving the proposed schedule should be brought to the immediate attention of the Project Manager for the University’s consideration.

Work Hours of Consultant (if on site): Monday through Friday, 7 am to 4 pm

Key Milestones:
- Identification of roofing alternatives
- Identification/resolution of structural implications for each alternative
- Detailed cost estimating for each viable alternative (roofing and reconfiguration)
- Identification of interior re-configuration alternatives
6. **REIMBURSABLES**: The only allowable reimbursables are as noted below; all other expenses are to be included in the Consultant’s price proposal.

- Travel outside of 75 miles from Baltimore, MD. Travel will be reimbursed per the USM travel policies VIII-11.00 and 11.10 available at [http://www.usmd.edu/regents/bylaws/SectionVIII](http://www.usmd.edu/regents/bylaws/SectionVIII)

- Printing of final documents

As part of its price proposal, the consultant is to provide a not-to-exceed total for these reimbursables work. The University will pay actual costs up to this not-to-exceed total. Any costs in excess of the not-to-exceed quoted amount are the responsibility of the consulting firm.

7. **PROJECT MANAGEMENT**

The UMBC Office of Facilities Management at the Columbus Center will be providing project management services for this Project. Once awarded, all inquiries shall be directed to:

Michael Yates  
Director of Facilities  
Columbus Center  
701 E. Pratt Street  
Baltimore, MD 21202  
410-385-6355  
yates@umbc.edu

8. **CONTRACT TERM**: Contract is to be issued for a period of six (6) months from date of award. There will be one (1) one year renewal options solely at the University's option.

9. **AWARD**: It is the University's intent to award a single Columbus Center Exhibit Hall Roof Consultant Contract.

As a result of these function and services, the Contractor might have access to educational records, as defined by FERPA. Contractor agrees that it shall not re-disclose personally identifiable educational records that it receives from the University pursuant to this Agreement, unless such disclosure is authorized to perform the functions and services provided through this agreement or is authorized under FERPA. Contractor shall indemnify and hold harmless the University from and against any and all claims, suits, proceedings, costs, losses, damages, liabilities, expenses, demands, and judgments, including court costs, attorney's fees, and other reasonable expenses of litigation, which may arise out of, relate to, or be a consequence of, an unauthorized disclosure of educational records. 45. **SMOKE-FREE CAMPUS:** In an effort to provide a healthy, smoke-free environment for everyone on campus, and in accordance with USM policy, effective, July 1, 2013, UMBC has become smoke-free campus. The campus has provided two designated areas removed from major pedestrian traffic. All existing smoking urns have been removed, and new urns have been placed at each designated smoking area. Permanent smoking shelters will be installed during the fall semester. The two locations will be the Park Road Smoking Area, adjacent to Lots 1 and 3; and the Fine Arts Service Smoking Area, near the Fine Arts Building service area. To ensure that this policy is adhered to, individuals found in violation will be directed to review the smoking policy online at smokefree.umbc.edu. Those violating the policy after that will be subject to a fine. This new policy reflects a national movement to provide healthy, smoke-free environments on college campuses and brings UMBC in line with more than 800 colleges in the United States that are already smoke free.
